Qantas A380 naming ceremony

On 30 September 2008, Tour East Australia hosted suppliers to the naming of Qantas' first A380 (Nancy-Bird Walton) at Mascot Airport. After the naming ceremony guests were treated to a one hour mystery flight to experience the in-flight service of the A380. A memorable day for all!

Australia - see the movie, experience the adventure!

Baz Luhrmann's 'Australia' showcases the country in a way never seen before.

Due for release in November, this epic romantic adventure event was filmed on location in Western Australia, Northern Territory, Queensland and New South Wales.

While fans will enjoy the latest epic production from Baz Luhrmann, Tour East Australia can help you turn Australia into the stage upon which your clients can star in their very own masterpiece! Just ask us about the many options we have available.

You might like to consider Voyages Hotels & Resorts who operate 21 hotels & resorts located in some of Australia's most breathtaking locations. Choose from the red heart of Central Australia, the soothing green depths of the Daintree Rainforest, the vibrant colours of the Great Barrier Reef, the rugged wilderness and vast open spaces of Western Australia's Kimberley or the vast canyons and alpine mountains of Tasmania.

Incentives & Business Events Division on the go!

Even in these tough economic times Tour East Australia is experiencing growth, so much so that we have just expanded our Incentives & Business Events Division with the introduction of a new Account Manager, Kim Cassingena who recently worked on World Youth Day 2008.

Employee Profile

Name: Karen Holloway

My role at Tour East:

I have recently joined the Tour East team as Manager, Product Development & Marketing. My role is to work closely with our clients to develop and implement market specific product offerings.

What I love the most about Australia: It's the amazing diversity we have on offer, a rich multi-cultural heritage plus the most amazing natural attractions. Being a keen photographer I love the contrasts between the green tropical rainforests of North Queensland, the white sandy beaches and deep turquoise waters of the Whitsundays and the rich ochre soil that makes up the Red Centre.

Favourite movie: Too many to name just one... I love a good chick flick!
